We are proud to support a diverse range of partners across the maritime & offshore sectors, delivering tailored marine solutions built on trust, professionalism and operational excellence. Our commitment to safety, performance and client satisfaction drives every engagement.

Our ASSETS

South Coast Marines operates a modern, purpose-built fleet designed to meet the diverse demands of offshore, marine support and coastal operations. Each vessel is maintained to the highest standards for safety, reliability and performance - ensuring we deliver dependable service when it matters most. Our fleet's versatility and capability reflect our commitment to excellence in every mission.

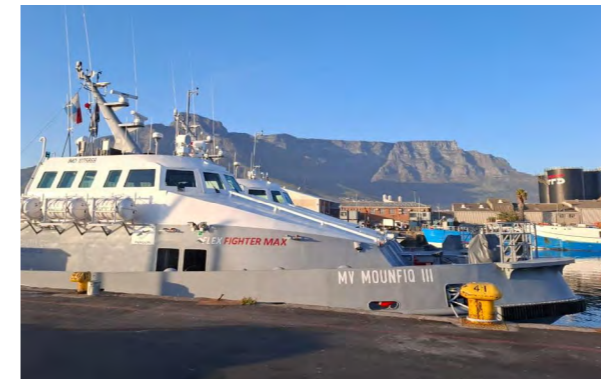

MV MOUNFIQ

The MV Mounfiq, a Sentinel class, multipurpose maritime vessel which sets a new standard in innovative design and protection, is fully compliant to the naval and oil and gas (O & G) industries operating on the waters of the African continent and beyond. It offers a platform optimized for peak coastal operation performance, mobility and security.

MV MOUNFIQ II

The MV Mounfiq II, a Sentinel class, multipurpose maritime vessel which sets a new standard in innovative design and protection, is fully compliant to the naval and oil and gas (O & G) industries operating on the waters of the African continent and beyond. It offers a platform optimized for peak coastal operation performance, mobility and security.

MV MOUNFIQ III

The MV Mounfiq III, a Sentinel class, multipurpose maritime vessel which sets a new standard in innovative design and protection, is fully compliant to the naval and oil and gas (O & G) industries operating on the waters of the African continent and beyond. It offers a platform optimized for peak coastal operation performance, mobility and security.

MV MOUNFIQ IV

The MV Mounfiq IV, a Sentinel class, multipurpose maritime vessel which sets a new standard in innovative design and protection, is fully compliant to the naval and oil and gas (O & G) industries operating on the waters of the African continent and beyond. It offers a platform optimized for peak coastal operation performance, mobility and security.

MV MOUNFIQ V

The MV Mounfiq V, a Sentinel class, multipurpose maritime vessel which sets a new standard in innovative design and protection, is fully compliant to the naval and oil and gas (O & G) industries operating on the waters of the African continent and beyond. It offers a platform optimized for peak coastal operation performance, mobility and security.

MV MOUNFIQ VI (Under Construction)

The MV Mounfiq VI, currently under construction, represents the next generation of South Coast Marines' Sentinel-class multipurpose vessels. Designed to meet the demanding requirements of the naval and oil & gas industries, the vessel will deliver enhanced performance, security and operational flexibility. Once commissioned, MV Mounfiq VI will further strengthen our fleet's capability to support offshore operations across the African coastlines.
